Messrs. Joseph Baer & Co.,  
Hochstrasse 6,  
Frankfurt a M., Germany

Sirs:

Kindly advise me if you have for sale, giving prices, any of the titles mentioned on the accompanying sheet. I should prefer bound copies, but in case it should be necessary for you to have the binding done, please quote the additional cost for a good quality of Library Buckram. I should want anything we may order sent by parcel post and under no circumstances by express. If any of the volumes are too large for sending by mail, kindly advise me to that effect when you quote prices. Also, if you have a list of your Numismatic books, will you kindly include it with your response.

Yours truly,

Secretary and Librarian.

The American Numismatic Society,

New York.

Gentlemen,

We beg to draw your attention to a very important publication on numismatics. It is the Thesaurus of Athenian Coins by Professor S v o r o n o s of Athen. The book forms part of the great Trésor des Monnaies grecques anciennes which was prepared and brought on by scholars of all countries in the years before the war. The outbreak of the War interrupted the whole work, and for the moment there is no possibility of bringing out the "Trésor" at a whole, but if the necessary number of subscribers is found, the part containing the Athenian coins would be finished and published.

It will contain 114 fine plates and will appear in 6 parts, each containing 19 plates. The price for America is fixed at Dollars 3.- for each part and Dollars 18.- for the 6 parts.

If you wish to subscribe, please send us word as soon as possible.

Yours very truly,  
ppa. Joseph Baer & Co.

I am returning your bill for Six Dollars  
(16.00) for the 23rd half section of Pauly's Encyclo-  
paedia. You will recall that this was ordered by Mr.  
Howell for his personal account and is merely sent to  
our address for convenience. You will also find on  
looking up the matter that he arranged to have you bind  
the volumes according to a sample which he sent you last  
year with the request that you save sufficient notations  
to duplicate it for subsequent issues. I have held this  
part here, thinking that it might be possible for you to  
send me some address in this country to which I could for-  
ward it for you. If this is not feasible, please advise  
me and I will mail it back to you.

We received your favour of November 7 in which you reclaim your continuation to Pauly-Wissowa. Your subscription to the book is carefully noted. You have given us instructions to send only complete bound volumes. Each volume consists of two half volumes forming one stout volume. The first half of volume 14 is out, containing Lysimachides - Mantike, but the second half is not yet ready. We therefore have reserved for you an unbound copy of volume 14, first half, and as soon as the second half is out, we shall have it out and shipped to you.

Hoping that these informations will clear up the matter, we remain,

very truly yours

## VORANZEIGE!

### Korpus der römischen Kaisermünzen (Augustus bis Gallienus)

bearbeitet von Prof. Dr. Max Bernhart, Hauptkonservator  
der Staatl. Münzsammlung in München.

In tabellarischer Übersicht mit kurzen biographischen und münzgeschichtlichen Einleitungen sind die Prägungen der römischen Kaiser von Augustus bis Gallienus verzeichnet. Das Material ist nach dem praktischen Prinzip der alphabetischen Folge der Rückseiteninschriften angeordnet. Außer den vollständigen Aufschriften sind knappe, aber zur Identifizierung von Bildvarianten ausreichende Beschreibungen der Darstellungen gegeben, ferner sind Nominale, Prägejahr, Standort und Literatur aufgeführt. Die Bearbeitung der größten Sammlungen bürgt für möglichste Vollständigkeit, was daraus erhellt, daß im beschreibenden Teil

das von Cohen verarbeitete Material um  
ein Bedeutendes überschritten

ist. Außerdem sind auch die Cohen'schen Beschreibungen in vielen Fällen berichtigt. Das Werk, das Ergebnis einer nahezu 20 jährigen Arbeit, erscheint in etwa 3 Bänden und zwar in deutscher, englischer und französischer Sprache. Blattgröße zirka 30×42 cm. Jedem Band sind 30—50 Tafeln in Lichtdruck beigegeben, was gegenüber der zeichnerischen Wiedergabe älterer Werke einen wesentlichen Vorzug bedeutet. Verbindliches Angebot kann unter Vorlage einer Probeseite in Kürze erfolgen.

Der Preis des Bandes wird ungefähr RM. 100.— betragen.

Das Werk ist im Auftrag der Stadt Düsseldorf von dem auf numismatischem Gebiet rühmlichst bekannten Verfasser geschrieben und bietet eine erschöpfende Darstellung der Münzgeschichte in historischer, geldgeschichtlicher und wirtschaftsgeschichtlicher Beziehung nebst einer genauen Beschreibung aller erreichbaren Münzen. Aus öffentlichen und privaten Sammlungen sind 239 Nummern mit 797 Stücke zusammengebracht worden, von welchen 170 Nummern auf den Tafeln abgebildet sind. Nicht nur für Fachgelehrte ist das Buch verfaßt, sondern es wendet sich an den gebildeten Laien, dem es eine Quelle reicher Belehrung sein wird. Für den Sammler und Forscher dürfte es unentbehrlich sein.

Den Museen sind die für sich erhältlichen Tafeln (Mappe mit 12 Tafeln Mk. 6.—) als Wandschmuck gedacht, neben dem vollständigen Werk. Sie werden das Publikum auf die Bedeutung der Münzkunde hinweisen und besonders das heranwachsende Geschlecht zum Sammeln und Erhalten des Überkommenen anregen.
